

PITCH SESSION OF PROJECTS OPEN TO COLLABORATION

CONTACT

Sofia ESSAYAR : 04 37 90 17 25 / sessayar@canceropole-clara.com

OBJECTIVE

The aim of the R2B Oncology Meeting is to foster public-private partnerships by giving you the opportunity to pitch your project during the plenary session.

You will get the opportunity to present your project and your expertise, with the objective:

- To **find partners** to co-develop your project
- To **share your expertise** available to other projects (i.e. specific equipment or know-how)

THEMES

The projects concern the discovery, development or optimization of:

- Cancer prevention
- Cancer diagnosis (validation of biomarkers for prognostic or diagnostic use, medical imaging...)
- Cancer therapy (drugs, vaccines, surgical devices, drug delivery, biosensors...)
- Patients' quality of life (reduction of treatments' toxicity and/ or side effects...)

The technological approaches may involve biotechnologies, medical technologies or digital technologies.

FORM OF COMMUNICATION

When: March 26th (Morning).

Duration: 5 minutes !\ Please note that the timing will be strictly enforced.

Format: 4 slides maximum in a given template !\ Personal computers cannot be used. You will be invited to send your slide deck before the event.
