

# Innovative therapies for skin diseases

Maximising the value of your preclinical assets to find a breakthrough therapy for patients

## Our aim

We are looking for partnering opportunities on new assets (new chemical entities, biologics and advanced therapies) in advanced Research or preclinical Development stages, that address a specific pathway and with a sound rationale for the treatment of dermatological conditions. Assets should demonstrate *in vitro* and *in vivo* evidence of efficacy as well as acceptable pharmacokinetic and safety profiles, if applicable.

## Who is this for

This call is addressed to scientists affiliated to start-ups, biotechs, universities, research centres, and pharmaceutical companies all over the world.

Join us

## Collaboration framework

- Submitted proposals may be eligible for
  - An advanced Research or preclinical Development collaboration
  - Further asset characterisation by Almirall in a pre-agreed panel of relevant cellular assays and *in vivo* models of dermatological diseases
- You will retain ownership of any intellectual property you may bring or develop
- An Almirall designated contact person will help you on answering your questions
- The potential to establish a long term business partnership depending on asset's development phase.

## Collaboration process

- Proposal submission
  - The first step is for you to create an account in [AlmirallShare Innovation platform](#) which is a secure site to store and manage your proposals
  - The submission period is from July 22<sup>nd</sup>, 2020 to October 31<sup>st</sup>, 2020
  - Please include an outline of your proposal (max. 300 words) and a description of the type of asset, its pharmacological, pharmacokinetic and safety profile, as well as its current development stage (max 3 pages)
  - All the initial information provided under the proposal should be non-confidential. In case you would like to share information under a non-disclosure agreement, please contact us at [shared.innovation@almirall.com](mailto:shared.innovation@almirall.com)
- Submissions will be handled following all applicable local compliance rules
- Proposal evaluation and selection
  - A team of Almirall scientific experts will evaluate your proposal as soon as it is received
  - You will receive in writing Almirall's decision regarding your proposal within 8 -10 weeks after submission
  - If your proposal has been selected, a member of the AlmirallShare Team will contact you to initiate a partnership agreement that will reflect a collaborative proposal, including eventual experimental activities, and/or a business proposal according to current asset's development phase
